FORM 101 USE PREVIOUS  
5-75 EDITIONS

1. This memorandum is to assure you that both the Deputy Director of Central Intelligence and I have already directed that the SCI Adjudicators' Seminar and the Physical Security Seminar be continued under the general rule that ongoing useful activities should be kept alive and functioning. For the time being, at least, the seminars will be arranged by the Community Counterintelligence and Security Countermeasures Staff (CCISCMS), Intelligence Community Staff, with the considerable help that has been provided in the past by Intelligence Community organizations.

2. As you are probably aware, recent retirements will complicate presentation of the next several sessions of the ex-SECOM seminars. [redacted] CCISCMS member, will, consequently, be soliciting assistance in replacing discussion leaders who have departed. Help in filling these vacancies is required if the seminars are to continue to be useful.

3. Physical Security seminars are scheduled for 8-12 September 1986 and 3-7 November 1986; the SCI Adjudicators' Seminar is scheduled for 6-10 October 1986. The annual Security Educators' Seminar is tentatively planned for early November at the FBI Academy (exact dates have not been established).

  
Craig Alderman, Jr.

MEMORANDUM FOR CHAIRMAN, INTERAGENCY GROUP FOR COUNTERMEASURES  
POLICY

Subj: SCI SECURITY TRAINING SEMINARS

Ref: (a) SIG-I Directive No. 2 of 29 May 86

1. Request that you place on the agenda for early IG/CM(P) consideration measures to continue the training seminars for SCI adjudicators and SCI facility accreditation inspectors. Early action is required to ensure proper transfer of support arrangements as well as reservation of the training facilities to continue these seminars.
2. Members of the former subcommittees of the DCI Security Committee (SECOM) on Personnel Security and Facilities Protection have been conducting four seminars annually for SCI personnel security adjudicators and three seminars annually for SCI facility accreditation inspectors. One SECOM staff member normally assisted in coordination of arrangements and on-site support for each of these one-week seminars.
3. These seminars have come to play a vital role in ensuring uniform application of the DCI Directive standards by all agencies and services participating in the SCI Security Program. The seminars have also afforded advanced training of a high order to our SCI security specialists, drawing on the outstanding personnel in the field and ensuring exposure to the best thinking and practices in SCI security management across all participating agencies. Loss of this uniquely valuable training would have an immediate adverse impact on the execution of SCI security and would result eventually in loss of many of the gains made over the past three years.
4. Recommend that the sponsorship of the SCI Adjudicators' and SCI Facility Accreditation Inspectors' seminars be passed back to the DCI's new SCI Forum since they are exclusively SCI directed activities which are not appropriate for IG/CM(P) sponsorship. Further, recommend that seminars scheduled for this year be held, and that the Director, Community Counterintelligence and Security Countermeasures Staff be requested to continue to provide limited staff support for their conduct and to ensure that reservations are made for the Washington Training Center for the next year.

  
V. J. PALMUCCI  
Director  
Naval Investigative Service
